Traders Guide of Texas makes transition in move to Internet

TRANSITIONS can be hard on people, but they happen anyway. After two years—109 weekly issues—of publication, the newspaper you're reading is in transition. It is moving from ink and paper to the ether of the Internet.

In some ways, that's sad. Hundreds of readers have written us over these years to let us know how much they love our paper. It has a loyal core of readers, many of whom might prefer that we stay in print.

But a Web site newly redesigned and upgraded is a cost-effective way to reach our readers with all the features, especially the bargains of our classified ads, that we've come to look forward to every week.

Beginning this week, readers can visit the Web site (www.tradersguideoftexas.com) to not only place free private-party classifieds but, if they like (and for a nominal charge), dress them up in colorful borders, screens, graphics and even animation.

Instead of the ads staying on newsstands for one week, classifieds submitted through the Web site will remain up for a whole month.

We haven't forgotten our substantial number of readers who do not

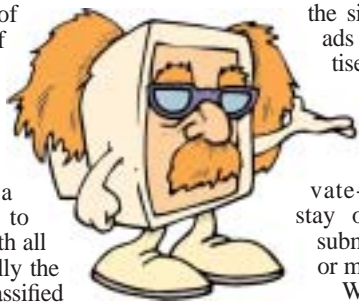

have computers. We will accept and happily continue to publish classifieds submitted over our phone line, through the U.S. Postal Service or by fax. In trying to determine how best to serve ad submitters who don't have ready access to computers, we decided to continue to support the tried-and-true ways of submitting ads.

Since there is no practical way for those advertisers to visit the site and cancel their ads in case the advertised items sell before the month is out, we decided to specify that the time the free private-party classifieds stay online after being submitted by phone, fax or mail is one week.

We are already constantly updating and improving the site. We welcome suggestions, letters to the editor, any kind of feedback our readers might choose to pass on to us in an effort to help us serve them as best we can.

We encourage those of you who do have computers to check with us at least once a day to see what we—and our advertisers—are up to.

It's a time of transition, all right. And we're determined to make the most of it and continue to be the best way to advertise for thousands of East Texans.

Kansas City bar twinkles as star of the seasonal cookie tray

KANSAS CITY, Mo. (NAPS)—The next time you're searching for the superstar cookie for holiday cookie exchanges, family get-togethers and parties, here's food for thought. The standout winner may well be a delicious Pecan & Cranberry Orange Bar.

Full of crunchy pecans and sweet bites of cranberry, this cookie plays up the brightest, cheeriest flavors of the season and stands out in the usual crowd of shortbread regulars. Plus, it looks absolutely dazzling on a cookie tray.

Just minutes to make, the recipe starts with a delicious pecan-bar mix. You simply add dried cranberries and some orange juice and zest, then bake

and take. It's quick, delicious and stunning, and you can see why it's a No. 1 favorite everywhere: because few can resist it.

Pecan & Cranberry Orange Bars

- 1 package Krusteaz Pecan Bar Mix (1 pouch each crust mix, filling mix and pecans)
- ¼ cup (½ stick) butter or margarine, softened
- ¾ cup dried cranberries
- ½ cup orange juice
- 1 egg
- 1 teaspoon orange zest

Preheat oven to 350 degrees. Place crust mix in medium bowl. Cut in butter or margarine with a fork or pastry blender until crumbly. Press crust mixture into lightly greased 8-by-8-by-2-

inch pan. Bake 8-10 minutes or until edges begin to brown. Sprinkle pecans and cranberries over crust. Set aside.

In medium bowl, whisk together filling mix, orange juice, egg and orange zest until blended. Immediately after stirring, pour gently over pecan and cranberry layer. Bake 28-32 minutes or until center does not jiggle when lightly shaken and top begins to brown. Cool completely before cutting. Makes 16 bars.

For an easy and elegant tart, press crust mixture into bottom and up sides of lightly greased 9-inch tart pan. Bake at 350 degrees 14-16 minutes. Set aside. Proceed as directed for bars.

The Compassionate Friends of Tyler

The mission of The Compassionate Friends of Tyler is to assist families toward the positive resolution of grief following the death of a child of any age and to provide information to help others be supportive.

The Compassionate Friends is a national nonprofit, self-help support organization that offers friendship, understanding and hope to bereaved parents, grandparents and siblings. There is no religious affiliation, and there are no membership dues or fees. The secret of TCF's success is simple: As seasoned grievers reach out to the

newly bereaved, energy that has been directed inward begins to flow outward, and both are helped to heal. The vision of The Compassionate Friends is that everyone who needs us will find us and everyone who finds us will be helped. Our monthly group meetings are held on the third Tuesday of each month at the Clinical Associates of East Texas building at 2010 Sybil Lane (just off Paluxy Drive) in Tyler. For more information, please call (903) 581-2831, (903) 780-7104, or visit us online at www.TylerTCF.org.

Traders Guide

makes the move: from ink and paper to the Web

Dear Reader,

We at **TRADERS GUIDE OF TEXAS** want you to be among the first to hear an important announcement about our publication:

You're reading the last issue of the print version of **TRADERS GUIDE OF TEXAS**.

Although we are discontinuing the print version after more than two years and 109 weekly issues, we are at the same time moving to a newer and in many ways more responsive technology.

This week the Web site of **TRADERS GUIDE OF TEXAS** (www.tradersguideoftexas.com) is expanding to include almost all the features of the print edition and many new features and options for our readers and advertisers.

We continue to offer no-strings-attached free private-party and paid business classified ads, but now with exciting new options.

Our classified advertisers can now dress up their ads—private-party or business—at a nominal charge, including with borders, graphics (even animation) and color.

Unlike the weekly printed newspaper, which could be updated only once every seven days, your advertisements can go up on our Web site on any day of the week during regular business hours.

On our Internet version, just like in the former print version, we will continue to publish our colorful assortment of classifieds and displays as well as articles, columns, recipes, cartoons and more.

Classifieds submitted online—both free ads and business ads—can stay

up on the site for one month at a time. If your advertised item sells sooner than that, you have the option of simply going online and deleting it from the site.

Note: If you submit a private-party classified by phone, postal mail or fax, it will stay up for one week before being automatically deleted. The automatic cancellation after one week is to accommodate advertisers who do not have access to the Internet. Since they have no way to cancel an ad if the item sells, we plan to leave their ads up for only one week (rather than a month), just as was the case with the print version, which came out every seven days. Just as with the print version of our newspaper, the ads can be resubmitted each week as needed.

At the bottom of this page is a box showing prices for business classifieds. Or see the regularly updated information online at www.tradersguideoftexas.com. For business display ads, call one of our ad people, **Sherry** at **903-636-4457** or **Floydell** at **903-636-4591**. For other information or questions, our business office is open during regular business hours. Its number is 903-636-9974.

There's no business without business advertising

To submit your business ad, whether classified ad or display, call one of our ad staffers, **Sherry** at **903-636-4457** or **Floydell** at **903-636-4591**, during regular business hours.

Coming soon: You may submit and pay for your business clas-

sifieds online any time of the day or night. Be watching for new features added to our Web site every week!

By the way, we now have two ways to access our Web site: tradersguideoftexas.com and easttexas4sale.com.

Free ads for *Traders Guide of Texas* readers who have computers

TRADER GUIDE OF TEXAS' new improved Web site allows you easily to submit free private-party classified ads at either of two addresses: tradersguideoftexas.com or easttexas4sale.com.

Simply go to our site and follow the simple instructions to not only place a free classified but (at nominal extra charge) add enhancements to your ad such as special borders and colors.

Please note: You are under *no* obligation to add these enhancements. Our standard private-party classi-

fied ad is still free, with no strings attached.

Free private-party classified ads submitted through the form on the new and improved Web site will stay up for a whole month. But, if you wish to delete an ad early because your item or items sold, you may go to our Web site and delete it at any time.

(Payments made for optional features you added to your free ad are not eligible for refunds in the event of such deletions. You are welcome to leave each ad on the site for the entire 30 days.)

Free ads for *Traders Guide of Texas* readers who DON'T have computers

For *TRADERS GUIDE OF TEXAS* readers who do not have access to computers to place their free private-party classifieds, the tried-and-true methods will still work.

Here are three ways to submit your free ads if you do not have a computer:

■ Phone them in as usual, dialing **1-866-949-7294** (**866-WHY-PAY-4-ADS**).

■ Mail them in to Traders Guide of Texas, P.O. Box 1020, Big Sandy, Texas 75755. (Use the form on page 10 of this issue, or send them in on a postcard or a plain piece of paper.)

■ Fax them to us at *TRADERS GUIDE OF TEXAS* at 903-636-9974.

Free private-party classifieds submitted using these methods will remain on the Web site for one week, which corresponds to the one week the paper version of our newspaper remained on newsstands.

Classifieds submitted using these methods are not eligible for early deletion in the event your item or items sell. The ads will stay up for a full seven days beginning either the same business day or the business day after you submit them.

Dear God, this is Noah. Since I was named after a little boy who loves you, and a Bible hero, I am expecting a pretty spectacular home. This is Noah, the yellow Lab. I am hoping for someone who has a very good throwing arm, because I love to play catch. If they have a pool or a pond, that would be super, but a baby pool or the spray from a water hose would also do. I am so very good looking and don't know why I am still here. Maybe you are just saving me for the right people at the right time. Dear God, I don't want to sound pushy, but I am so ready to go to my forever family. Can you have them find me soon? Send me a rainbow and fill my heart with hope. I love You! See Noah's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Flora is as sweet as her name implies. She is a tiny, tiny black Lab with a wonderful personality. Almost a year old now, she's full of energy and lots of charm. She's always ready to play with a toy, but I like it when she stops and leans on me so I can give her a big hug. She wiggles and kisses as if to say: Please don't stop! When we found her she had 2 gunshot wounds. Now, who could have been so cruel to this little angel? Come and meet her. Prepare to fall in love. She gets along well with other dogs too! Misplaced Pets at Holly Lake Ranch is praising God and is so thankful to Him and all of you who have let us know that you are praying for us. Six dogs found wonderful homes this week! We could not do what we do without your prayers. Let's continue to put a stop to "littering" East Texas. Thanks again for your support!

Mojo the tiny black Pit Bull is really coming along. He had his very first photo session the other day and you may see his pics online. He is now taking treats from our hands and with a patient owner like you this submissive male would be your shadow. He would also let you know if anyone was around! He'll need a fenced-in yard and lots of treats. If you want to meet him, give us a call. He is very sweet and just needs a bit of time to warm up to you. Mojo is routine oriented and is one of the most obedient dogs we have at the kennels. He comes in and out of his run with great ease and willingness to please. He needs some extra attention. Do you have time for him? See Mojo's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

Mousse devours bear! Well, a stuffed bear! This Chesapeake Retriever mix is a big, beautiful boy who is very serious about stuffed toys. He loves them and enjoys having one in his mouth. We are fattening him up these days for his new home. He would enjoy a place with enough room to exercise and stretch his legs. Mousse would make a great dog for a runner or a long walker, because he has plenty of energy. He would also really like to be part of the family and not left outside when you gather as a family indoors. With a smile from ear to ear, Mousse is a riding fool. He just adores a good car ride and just sits up in the back seat or the front, like he is a real person. We would let him drive, but he doesn't have a license yet! See Mousse's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

Registered dachshunds. Altered male and intact female, both black and tan. Male is short-haired, about 5 years old. Female is long haired, about 4 years old. Male is very hyper, needs fenced yard and adults that want a very attentive little guy. He needs someone that can give him lots of attention and needs to be inside during weather of extreme temps. Female is very laid back, has had 3 litters of pups and would do best as pet, not a breeder. She rides in the car very well. If you need a friend to go with you she will be there. Asking \$200 for male and \$300 for female. If interested and have never had a dachshund before please research the breed first. I want my dogs to go to homes where new owners will be totally committed to them. They need to be part of a family. No small children, please. 903-845-4301 after 5 p.m. or wjcheyenne@wmconnect.com. Cash only.

Retiring excellent pet, 3-year-old male Pekinese, very loyal, housebroken, proven stud. \$100 or best offer. 903-738-4294, 903-643-9412.

She's a lightweight, our Woozle! Part Chesapeake Bay Retriever and part just plain chocolate, this petite dog is about 9 months old and is as big as she is going to get. What a loving lady, and she can be very calm or run like the fun pooch she is after her toys. Her favorite dog on the yard is Blondie and they really enjoy each other. Woozle is a real character that would fit in with any size family. Just don't leave her out of the Christmas photo. She's sure to make everyone smile. See Woozle's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

Strike a pose, will ya? That's what Corkey likes to do. She loves getting her photo taken, and who wouldn't? She's a year-old black Border Collie-Lab with a white blaze on her chest. She is absolutely darling and ready to be yours. Corkey would enjoy a family that understands that a dog wants to be part of the action. She's well mannered and would be great with children of all ages. Faithful and true, Corkey would be one of those dogs that steals your heart over time. It's because she is not only cute, but also really sweet and loves to please. When she's in the baby pool at the kennels she's on top of the world. Want to welcome her to yours? See Corkey's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

680 Want a really cool dog? Then you want a dog like Buster, the purebred Black and Tan Coon Hound. He is one good-looking fellow with a big personality. He also gets along well with cats and has taken several walks with a tabby in tow! This dog is not only leash trained but is crate trained too. His best pal is Rosie the red-headed mutt and I bet you would want them both! See Buster's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

Talia needs a loving home. She is a heeler-blackmouth cur cross, 11 months old, not altered, need shots. Very, very sweet, gentle, easy to teach, gets along with dogs and cats she knows. Okay in house for short periods for visits. Loves to drink coffee with you in the morning (half a cup, half decaf). Prefer home with another dog to play with. Also free is her buddy, a young female cat who fetches like a dog. 903-765-2034.

Want a dog that looks like a little stuffed toy? That's Katie, the Chow Chow–Australian Kelpie mix. She weighs in at about 38 lbs. and is a funny little character. She loves to walk on a leash and enjoys licking cream cheese from the top of your hand. When we first got Katie, she was so shy that she would run from us. As a socialization technique we put cream cheese on our cheeks. She licked it right off and took up with anyone who would wear that soft white facial! These days she's more likely to join up with you when she's on the leash. Katie really enjoys her walks. This little black dog with dark chocolate eyes is just perfect for someone. You will just love her. We have had her longer than anyone else at the kennels. People ask, Why? We know it's because God has set her apart for you. See Katie's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Look for Misplaced Pets at Holly Lake Ranch or call Carolyn at 903-769-4469 for a meeting.

What's in a name? A dog named Rosie sure is sweet and she would love to be your new friend, as long as you came with toys and room for a grin. She is such a funny little mutt and we are so delighted with her. She loves to play with Buster, the Black and Tan Coon Hound. She's content to be in her run or out on the yard. She would love to be near you catching the kitchen scraps as they fall to the floor and would look really great in a winter sweater. We think she would love to stay with Buster, but we would let her go to the right home by herself. See Rosie's picture at www.petfinder.com by searching for pets in the 75765 zip code area. Roza and I feel like we've been dropped into a tropical-fish tank

By M.L. "Jimmy" Myers
HOLLY LAKE RANCH—
 Yesterday we were swimming with the stingrays in Stingray City, but this morning on day six of our cruise we arrived at the island of Cozumel, Mexico.

The cruise from the Grand Caymans to Cozumel overnight was uneventful.

Of course it was uneventful. We were asleep the whole night without a clue of whether we were at sea or solidly planted on terra firma.

M.L. Myers

This morning Roza and I enjoyed a late breakfast, late for us, as we watched the *Rhapsody of the Seas* drop anchor offshore of the Island of Cozumel around 9:30.

We have scheduled a trip ashore to snorkel off the coast of fabulous Palancar Reef on this day. It is one of the most beautiful coral reefs in the Caribbean.

Since we had a couple of hours to kill before snorkeling, we again

decided to do the tourist thing and browse the small shops along the harbor.

It turned out actually to be more a shopping trip than a buying trip for a change.

The one sole exception was that I purchased a black-and-white T-shirt with a line drawing of three iguanas standing at a bar in colorful Hawaiian shirts.

When you bring it out in the sunlight it blossoms into a rainbow of colors.

Grandson Brian would get a kick out of that, I thought.

Mexico's largest island

After about an hour we had seen everything we needed to see, so we wandered back to the dock and our modern high-speed skiff, which would take us to Palancar Reef.

Cozumel is Mexico's largest island, nestled only 12 miles off the coast of the Yucatan Peninsula.

It is 28 miles long but only 10 miles wide, with some of the most beautiful white sandy beaches anywhere.

The climate is subtropical and the original inhabitants were of Mayan descent.

Cozumel was a sleepy little fishing village until Jacques Cousteau declared it one of the most beautiful scuba-diving areas of the world in 1961.

The underwater life is abundant and the clarity of the water means 100

SNORKELING—Above left: Something seems fishy about these fellows. **Above right:** This is the skiff that took us to Palancar Reef. I took this at water

level 50 or more yards away. **Below right:** This is a seashell our guide dove down and brought up. The conch was still alive inside it. [Photos by M.L. Myers]

to 200 feet visibility, depending on the weather and season.

Everything needed, such as masks and flippers, is provided, and newcomers are schooled in how to adapt to the underwater world in minutes.

I have a small underwater Nikon camera that, although suitable for only depths of 10 to 12 feet, is perfect for snorkeling.

I took one picture with the Nikon just at water level and our skiff some 50 yards away looking as though it had left us stranded. (See the photo on this page.)

The water where we were snorkeling was some 75 to 100 feet deep, and all were required to wear life jackets.

I find them to be cumbersome. Although we were required to wear them, we were not required to inflate them.

The deflated jackets make the art of

snorkeling much more fun, with more freedom should one wish to dive down for some underwater shots of aquatic life. (See the picture.)

While we were snorkeling, our guide dove deep and brought up a beautiful conch seashell with the live conch still safely ensconced inside. (See the photo.)

All good things

One quickly loses all sense of time on snorkeling voyages, with the never-ending panorama always

inside. (See the photo.)

fascinating.

However, all good things must at some point come to an end, and, since our good ship *Rhapsody* would be hoisting anchor at 6 o'clock, we had to leave the Palancar Reef.

Go on a cruise at least once

Continued from page 14

That night aboard ship we were entertained by comedian Gary Mule Deer at the early seating.

Mr. Mule Deer has appeared on both Letterman's and Jay Leno's late-night shows as well doing the Las Vegas circuit quite often.

He was amusing, but after an afternoon in the Gulf Roza and I were both eager to return to our cabin and turn in.

Magic light show

On our final day we mostly lounged on deck and recovered from a little too much sun exposure from the previous day.

That night, Saturday, we were again entertained, this time with a great troupe from Argentina called Los Pampas Gauchos.

They put on a great drum and dance performance with swinging bolas and an incredible light show called "Fluorescence" that was purely magical.

The stage was in total darkness while fluorescent animals and puppets flew everywhere with wild abandon.

Although we were sitting up close, we had not a clue of how they were able to pull the effect off so flawlessly.

The power of now

After dinner we finished packing and set our bags outside the cabin.

Sunday morning we were at dockside when we awoke and disembarked the grand ship *Rhapsody of the Seas* by 11 for our trip back to Holly Lake Ranch.

Both of us agreed it was one of the most relaxing trips we had experienced in a long time.

When cruising, we both are in agreement that it doesn't matter so much *where* you travel. Much of the adventure is not in the destination but in the journey.

For the price of less than \$100 a day, without the hassle of airports, cruising offers elegant dining, entertainment and a constantly changing outdoor scenario whether you're on top of the water or underwater.

Currently Royal Caribbean has the largest seagoing hotel afloat, called *The Freedom of the Seas*, which is supposed to have a capacity of more than 3,000 passengers.

We have not decided whether so large a ship would be for us or not. One might have to stay aboard for a two-week sojourn just to find out where everything is.

On the other hand, the thought has some intriguing possibilities.

We wholeheartedly recommend you try the cruising vacation at least just once sometime during your lifetime.

You may find what other seafarers have found down through the ages: that there is something highly addicting about sailing the high seas.

Yo-ho-ho, y'all.
